

# Range Master Commands & Duties

Shooters go to the firing line with UNLOADED, holstered firearm.

## ***“Shooters load.”***

Shooters load and may take a sight picture, then holster.

## ***“Shooters ready?”***

Ascertain shooters are ready - each shooter’s hands are above shoulders.

## ***“Standby.”***

**\*\*Sound horn.\*\*** to commence firing.

Observe pins; shooter’s table must be cleared of pins – if each shooter has only one pin remaining, FIRST pin to hit GROUND wins.

**\*\*Sound horn\*\*** again to signal cease fire and point to winner for scorekeeper’s benefit.

Shooters clear firearms. Each Safety Observer verifies a clear/safe firearm and AFTER firearm is holstered, raises hand high to signal clear/safe.

Upon seeing the clear/safe signal from both Safety Observers, declare ***“Clear!”***

Shooter picks up brass and target crew resets pins.
